

CAREER OBJECTIVE

Seeking a challenging role in Front-End Development within the IT industry, leveraging expertise in creating responsive and intuitive web applications. Targeting opportunities to enhance user experiences and drive innovation in web development.

KNOWLEDGE PURVIEW

- Front-End Development
- User Experience Design
- Agile Methodologies
- Responsive Web Design
- Cross-Browser Compatibility
- Performance Optimization
- Web Accessibility
- UI/UX Best Practices
- Information Architecture
- Mobile Responsiveness

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript
- **Front-End Frameworks:** React
- **State Management:** Redux
- **Back-End:** Node.js, Express
- **Database:** MongoDB, SQL
- **Version Control:** Git
- **Additional Tools:** Next.js, Python

CERTIFICATION

IRC, CCBP Tech 4.0 Intensive Program (Mar 2021 - Nov 2021): Completed Full Stack Web Development Certification through an intensive program focusing on industry-ready skills.

SOFT SKILLS

- Team Leadership
- Analytical
- Problem-solving
- Communicator
- Critical Thinking
- Time management

PERSONAL DETAILS

Date of Birth

21st November 1998

Languages Known

English, Telugu

PROFILE SUMMARY

- **Proficient Front-End Developer:** Hands-on experience at TCS since December 2021, specializing in crafting responsive and intuitive web applications using HTML, CSS, JavaScript, and React.
- **Performance Optimization:** Demonstrated expertise in optimizing application performance and maintainability by implementing React components and utilizing tools like Babel and NPM.
- **React Ecosystem Mastery:** Skilled in leveraging the React ecosystem, including React Router, Hooks, and Create React App, to streamline development processes and enhance efficiency.
- **State Management with Redux:** Experienced in managing complex application states with Redux, ensuring data consistency and scalability across projects.
- **Effective Team Player:** Collaborative team player with a strong background in integrating frontend components seamlessly with RESTful APIs and backend services, fostering effective communication and project cohesion.
- **Version Control and Collaboration:** Proficient in version control using Git, facilitating seamless collaboration and efficient code management practices within development teams.
- **Full-Stack Capabilities:** Possess comprehensive full-stack development capabilities, with knowledge spanning Next.js, Node.js, MongoDB, Python, and SQL, acquired through formal education and practical experience.

WORK EXPERIENCE

TCS | Front-End Developer | Dec 2021 – Present

Growth Path:

 Assistant System Engineer
Trainee

Key Result Areas:

- Spearheading the development of responsive and user-friendly web applications using HTML, CSS, JavaScript, and React to meet client requirements.
- Collaborating with backend teams to seamlessly integrate frontend components with RESTful APIs and backend services, ensuring optimal application functionality.
- Utilizing React ecosystem tools like React Router, Hooks, and Create React App to streamline development processes and enhance user experiences.
- Managing complex application states with Redux, ensuring data consistency and scalability for improved performance.
- Demonstrating strong problem-solving skills to identify and resolve technical challenges effectively, ensuring project timelines are met.
- Employing Git for version control to enable seamless collaboration and code management practices within the development team.
- Leveraging Next.js, Node.js, MongoDB, Python, and SQL for comprehensive full-stack development capabilities, contributing to project success.
- Ensuring high standards of code quality and adhering to best practices in web development to deliver robust and scalable solutions.

Achievements:

- Earned a certificate of achievement upon successful completion of the Wings 1 exam at TCS.
- Received a commendation certificate for outstanding participation and performance in the TCS coding contest.
- Enhanced application performance and maintainability by implementing React components and utilizing tools like Babel and NPM, resulting in an improvement in overall efficiency.
- Successfully optimized user interfaces, resulting in an increase in user engagement and satisfaction.
- Implemented efficient data management strategies with Redux, leading to an improvement in data consistency and scalability.
- Streamlined development processes by utilizing React ecosystem tools, resulting in a reduction in project timelines.
- Collaborated effectively with cross-functional teams, resulting in an increase in overall project success rate.

EDUCATION

- Lakireddy Bali Reddy College of Engineering (Oct 2020): **B.Tech in Electronics and Communication Engineering**, CGPA: 7.76.
- Sri Chaitanya Junior College (Mar 2016): **Intermediate (M.P.C)**, score: 78%.
- Vikas School (Apr 2014): **S.S.C**, GPA: 9.5.
